

Patient-centered medical home

- Better access to care
- Personalized and holistic treatment
- High quality evidence-based care
- Guides you through complex healthcare systems
- Coordination of care across settings

Types of services

- Primary care for all ages
- Prevention and wellness
- Chronic disease management
- Counseling, substance use treatment
- Women's health
- After hours and immediate/urgent care
- Supportive services
- Pharmacy

Make the most of your patient-centered medical home...

Before your visit:

- Write a list of your questions and concerns
- List new medications and any updates to your medical record

During your visit:

- Ask questions
- Help make decisions
- Discuss any other health care provider you have
- Determine next steps
- Receive education and tools for your care

After your visit:

- Follow your care plan
- Tell your health team if there are changes
- Ask questions if needed
- Use after hours call line for urgent needs: (502) 778-0001
